Before you begin installing this assembly, read all instructions thoroughly.

For a smooth fit:

For ease in installation, the product should be installed at temperatures above 72° F. Below this temperature, the fabric may contract an inch or more, making it difficult to fit to the vehicle. It is normal for fabric to contract and wrinkle when stored in the shipping carton. Within a few days after the installation, the fabric will relax and the wrinkles will disappear.

Wrap the Loop tabs under and around the frame and attach them to the Hook fasteners on the Bag. Thread the web straps on the front of the Bag through the buckles. Pull the ends of the straps to tighten. Adjust the straps and the hook and loop fasteners for a smooth fit. Repeat this procedure with both Door Bags.
