Start at the rear of the Jeep, and wrap the attached long strap on the passenger side under the spare tire carrier and attach the loose end to the buckle on the driver side.

Loosely snug the strap tight at this time.

Step

Step 2

Attach the straps to the buckles on the bottom edge of the cover.

Attach the hook at the end of each strap to the Jeep body pinch weld along the bottom edge of the rocker panels on each side - or to another suitable point if the pinch weld is covered.
